## Connecting your SGT Account to GS Pro

Once you have registered for SGT, you will need to connect your account to GS Pro. You do that by locating your SGT User ID and typing into the setting of GS Pro. (see below)

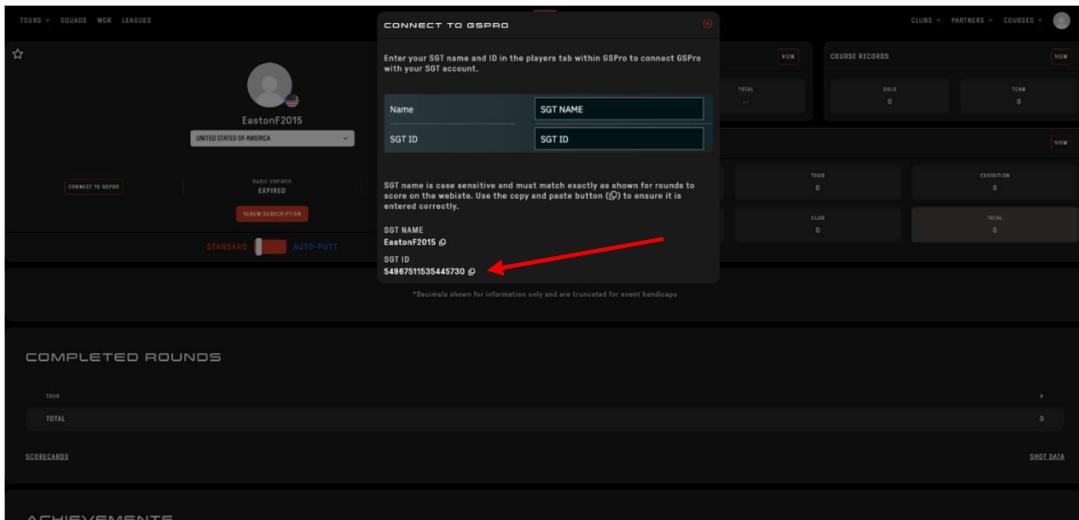

First, click on “my profile” in top right corner

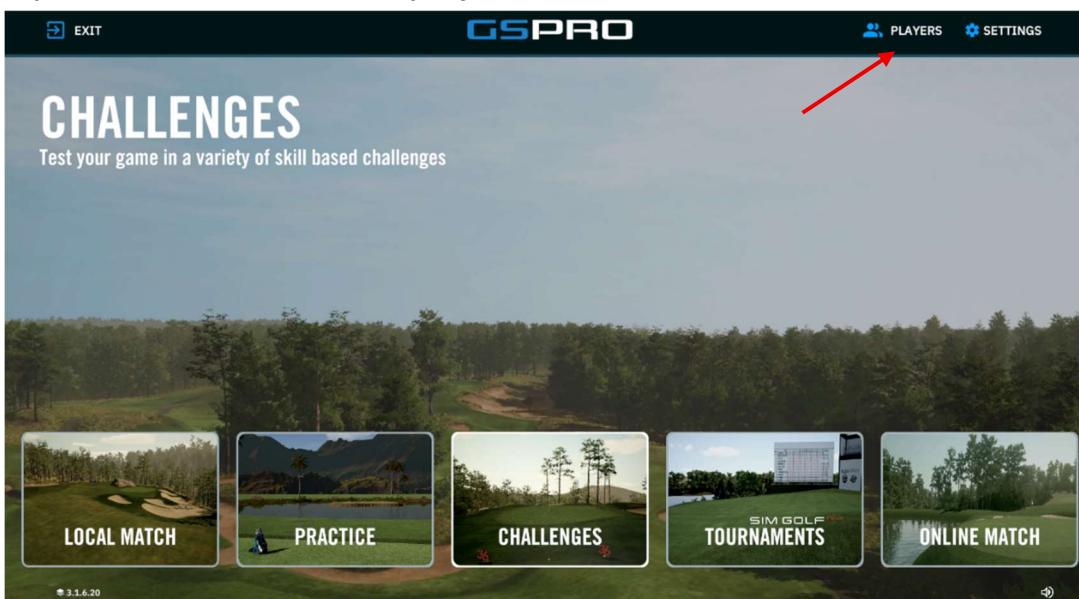

Next click “connect to GSPRO”

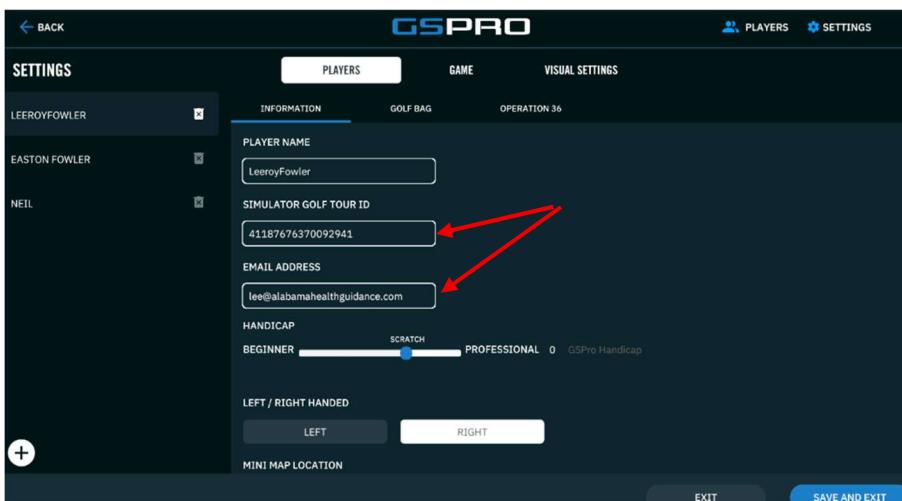

Now, copy the “SGT ID”. (You will paste this into your settings in GS Pro)

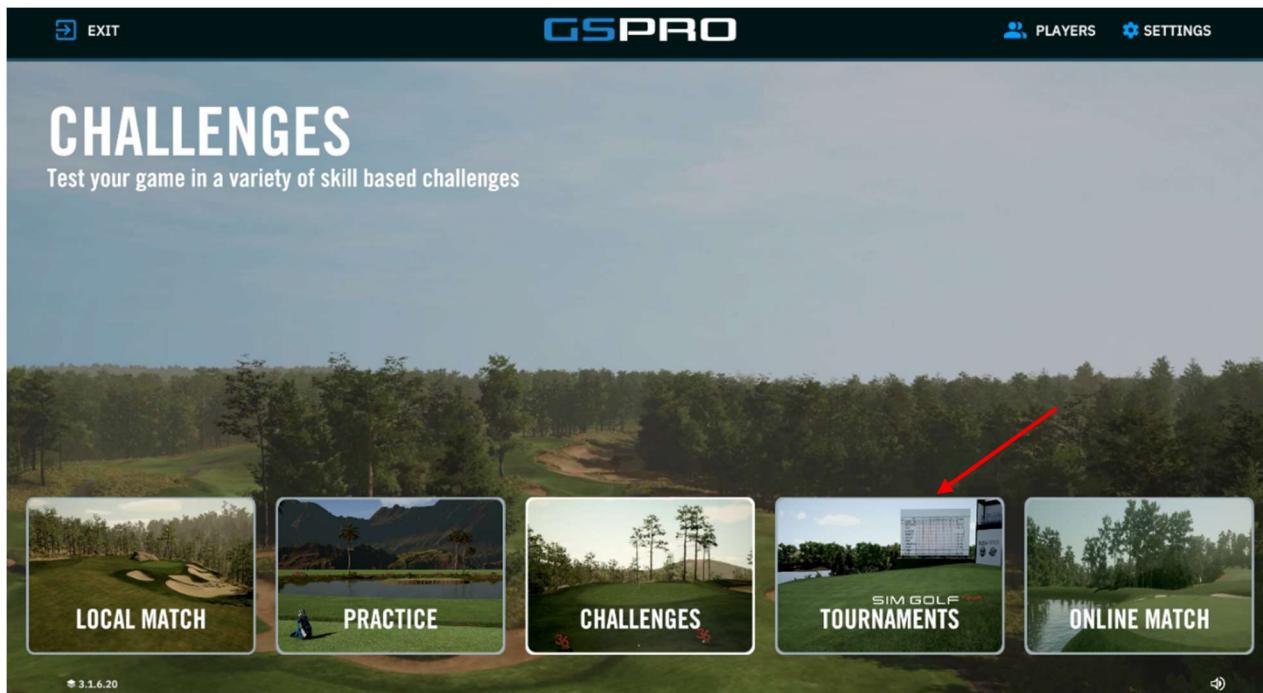

Open GS PRO and Click “players”

Select or create the player and update the “Simulator Golf Tour ID” and “email address” used for SGT Account

Now from the home screen, choose “Tournaments”

You will now see the events that you've registered for on SGT. (you will need to have the course downloaded for the event that you are playing)
